

Xenia, OH: August 5, 2021- 4 Paws for Ability is pleased to announce the official name of the newest building at its campus in Xenia: “The Ability Center” in memory of Dorothy and Sue. A large donation from their trust helped to partially fund the center.

The Ability Center, on Dayton Avenue, was a former strip center in between the 4 Paws Puppy House and the 4 Paws Headquarters Facility so it was an ideal location to renovate and add to its campus. 4 Paws has been increasing its campus facilities on Dayton Avenue in Xenia over the last seven years with the goal of training as many task-trained service dogs for people with disabilities within the scope of its ability. The Ability Center currently houses young puppies in training and is where staff and volunteers care for and provide puppy enrichment activities before the dogs go to their next phase of development as service dogs in training.

Facility Tours are the second Saturday of every month:
